Four criminals are on the run and it is your job to identify them. Match each criminal to his or her age, weapon of choice, and crime. Ferdinand and Bartholomew are male, and Lucretia and Melinda are female.

1. No criminal has a first initial that is the same as the first letter of his/her crime or weapon of choice.
2. Lucretia is a precocious seven-year-old criminal, but she doesn't know how to use a 3D printer.
3. The arsonist is female; she does not use the band saw.
4. The forger uses a belt sander to get the perfect finish on his/her counterfeit goods.
5. The murderer's weapon is a laser engraver (don't ask).
6. The bank robber's age is odd.
7. Bartholomew is not the oldest of the bunch.
